

# Welland Brass Rubbing Trail

There are **12** brass rubbing posts hidden around Welland. Can you find them all?

When you find a post, place your paper on the plaque, then colour over it with a crayon to make your own copy of the picture!

Getting outdoors is brilliant fun! When you go for a walk and explore nature, you can discover all sorts of exciting things right on your doorstep.

It's a great way to get to know the place you live and find all the special green spaces in Welland. You might spot colourful flowers, busy insects, and hear beautiful birdsong!

Exploring outside helps you enjoy the fresh air, feel happy, and see how amazing nature really is.
