

Climate Change Statement

Little Malvern and Welland Parish Council acknowledges the pressing need to respond to the current global climate and ecological crises. We resolve to carefully consider the impact on the climate and the environment in all council decision making. Those decisions that may be harmful, now or in the future, shall be avoided if possible, or otherwise mitigated or minimised to the best of our ability.

The council will also seek opportunities to proactively protect and enhance the local environment, and to explore ways to reduce our carbon footprint. This will be delivered through positive application of the policies in our Neighbourhood Plan and our Biodiversity Policy, and through decision making that considers and minimises the carbon footprint of its outcomes.

Agreed at Parish Council Meeting on 12th May 2025.
